MAIN DASHBOARD – VIEW CHANGES BASED ON USER ROLE

The screenshot shows the TaskMaster dashboard for a user named Karan S. The page title is "Dashboard - Group Supervisor". The date is "Thu Sep 21 2023". The left sidebar contains the TaskMaster logo and navigation links: "Deactivate" and "Log Out". The main content area has a "HOME" header and a "Create Group" button. Below the header is a "Your Groups" table with 3 columns: Group Name, Group Admin, and Group Role. The table lists two groups: "Devops Team" (Admin: sowmya1211, Role: Group Member) and "HR Team" (Admin: karan02, Role: Group Admin). To the right of the table is a "Your Tasks" box showing "Pending: 2" and "Completed: 5". The footer shows "© 2023 K Sowmya".

TASK DASHBOARD – VIEW CHANGES BASED ON WHETHER YOU ARE A TASK LEAD OR NOT

As seen, different views and access controls have been implemented for various users to collaborate and perform their tasks seamlessly

A user can be a part of several groups with different roles

He / She can be assigned several tasks or even create tasks based on their roles within a group

Users assigned to a task can check on others reports and may update their task reports

Task leads may also update the task status, assign users to the task or even deallocate users from a task
